Mercedes-Benz A200 Saloon AMG

HIGHLIGHTS

Special Innovation

A is for advanced. With the Mercedes-Benz User Experience (MBUX), the A-Class drives a new generation of user-friendly tech. Quite possibly the most capable, natural and intuitive speech interface from any automaker, it's easy to learn because it can learn about you.

AMG Body Styling

A resculpted front air dam, flared side sills and deep rear valance team with 18-inch AMG wheels for a gripping appearance befitting the car's handling. The front apron's outer air intakes feature a chrome splitter and slats to guide air to the running gear and around to the shapely side sills. Twin trapezoidal chrome tailpipes punctuate the distinctively sporty rear valance.

Multi-Function Steering Wheel

The steering wheel offers a pleasing grip and sporty appearance. The racing-inspired flat-bottom design brings out the enthusiast in any driver. Contoured, perforated side grips invite your hands into the ideal position to enjoy the standard shift paddles.

Touch Control Buttons

Innovative Touch Controls elevate the multifunction steering wheel to an unparalleled level of user-friendliness. In addition to fingertip buttons for features like audio, Bluetooth® and cruise control, smartphone-like pads offer direct control of nearly every cockpit feature. Swiping through menus is easy: Your left thumb operates the menu screen in the gauge cluster, and your right thumb controls the large central screen without taking your hands from the wheel's leather-wrapped rim.

Dual-Zone Automatic Climate Control

Separate left and right temperature controls allow the driver and front passenger to enjoy personalized comfort. In addition to fully automatic or manual control of blower speed and airflow distribution, the system includes a dust and pollen filter that helps keep particles as small as 5 microns from entering the cabin. Five adjustable vents in the dash and a pair of rear-cabin air vents help maintain passenger enjoyment throughout the cabin.

Touchpad Controller

A large touchpad controller on the console lets you operate the in-dash central touchscreen while your hand rests comfortably at your side. The touchpad works a lot like your smartphone, including multitouch gestures like swiping through menus and pinching to zoom. The touchpad surface includes dedicated Back, Skip and Home virtual keys, and even recognizes handwriting. Adjacent one-touch hard keys access several frequently used functions.

High-Style, High-tech Cabin

Fine materials, forward-thinking technology and freshly reimagined design unite in a cabin that's a cut above and steps ahead of ordinary small cars. Digital instruments and displays, touchpads on the steering wheel and console, and an industry-advancing voice interface enhance ease of use. Aircraft-inspired round vents and luxuriously contoured seats add to the premium feel.

Mercedes-Benz A200 Saloon AMG

FEATURED PACKAGES

10.25-Inch Multimedia Display

A widescreen color display with multitouch interface makes it easy to access a world of features, including audio, phone and vehicle settings. In addition to the three input methods of the standard screen (touchscreen, console touchpad, and Touch Control steering wheel).

KEYLESS-GO

A leap in ease and efficiency pioneered by Mercedes-Benz, KEYLESS-GO® lets you unlock, start and drive away without removing the SmartKey from your pocket or purse. You can lock and unlock the doors with a touch of the exterior handles, and start the engine by stepping on the brake pedal and pushing the KEYLESS-START button on the dash.

LED Headlamps

With longer life, quicker illumination and beams that approximate daylight even more closely than xenon headlamps, multi-element LED headlamps enhance both vision and visibility during nighttime driving. LED Daytime Running Lamps and all other front light functions are integrated within the flowing sculpture of the headlamp assemblies, making the design as appealing as it is illuminating.

18-inch AMG Twin 5-Spoke Wheels

Iconic 18-inch AMG® alloy wheels feature a twin 5-spoke design. They're equipped with all-season Extended Mobility tyres.
