Toyota Corolla Cross

HIGHLIGHTS

A design that combines urban luxury with SUV excitement

The all-new Corolla Cross has been designed to be "urban and active," with the dynamism and sophistication of an SUV.

Commanding, powerful exterior

Its commanding, urban proportions are rooted in a contrast between its relaxed upper body-including glass surfaces, and front and rear lights-and its wide, stable bumpers.

Suspension designed for a supple, comfortable ride

Newly developed torsion beams and large rubber bushings in the rear, a combination that delivers outstanding road-holding on uneven roads, coupled with a luxurious ride.

Convenient luggage space with a variety of layouts

The all-new Corolla Cross offers some of the best luggage capacity in its class, with 487 liters available even when seating five.

High-rigidity body for superb steering stability

The Corolla Cross combines a fully developed GA-C platform with a lightweight, high-rigidity body frame to provide nimble and stable steering in a manner that belies its tall vehicle height.

Powertrains that deliver a pleasing and intuitive ride

The car responds reliably to accelerator operation, and gains speed in a smooth, pleasing manner.
