Mercedes-Benz CLA200 AMG Coupé

HIGHLIGHTS

Widened Track

Not only does the new CLA's wide track boost the car's road presence and help make it look powerful, it also helps cornering ability and straight-line stability.

Forward-Inclined Front With Diamond Radiator Grille

Side-on, the new CLA has a particularly dynamic appearance thanks to the forward-angled front grille at the end of the elegant bonnet. Along with the diamond radiator grille, the car always makes a statement.

Coupé Design

With the new CLA, it's never a question of 'either or' because this is a car that has the best of both: a breathtakingly dynamic coupé roofline and practical, four-door layout.

Muscular Lines

The muscular shoulder line running from the front wheels to the sculpted rear end is the CLA's defining design feature.

Two-Section Rear Lamps

Thanks to the rear lights featuring a horizontal, two-section design, the rear of the new CLA looks especially powerful. An additional bonus of this design is that the boot lid is wide enough to fit even the bulkiest objects in.

Cutting Edge Interior

The new CLA has a welcoming, wrap-around cockpit, with smooth transitions from the instrument panel to the centre console and door trims. Class-leading choices of trim and optional 64-colour ambient lighting help to show off every detail.

Fully Digital Widescreen Cockpit

The state-of-the-art Widescreen Cockpit consists of two HD displays. On the right is a touchscreen that shows all the infotainment content and vehicle settings, while the left-hand side is an instrument cluster with various display styles for you to choose from.

Multi-Function Steering Wheel

The steering wheel features pronounced contours, thick padding and a leather-wrapped rim with perforated side grips, putting the delights of precise handling literally in the driver's hands. Convenient multifunction controls do likewise while operating the most frequently needed vehicle functions. Raised thumbrests are placed at the ideal "10 and 2 o'clock" positions, near the shift paddles.

Dual-Zone Automatic Climate Control

Separate left and right temperature controls allow the driver and front passenger to enjoy personalized comfort. In addition to fully automatic or manual control of blower speed and airflow distribution, the system includes a dust and pollen filter that helps keep particles as small as 0.0002-inch from entering the cabin.

Touchpad On Centre Console

Convenience at your fingertips.

Sport Cabin Styling

In the Mercedes-Benz coupé tradition, the CLA cabin combines sporty seats with a clear focus on driving enjoyment. Yet in an ultramodern twist, the CLA includes room for a fifth passenger along with a fresh take on its ergonomically ideal displays and controls. Every shape and surface is designed to please the eye and invite the touch.

Mercedes-Benz CLA200 AMG Coupé

FEATURED PACKAGES

KEYLESS-GO

As rewarding as it is to have the key to a CLA-Class in your pocket or purse, you never need to take it out to start the car. Just step on the brake and push or the Start/Stop button on the dash, and you can be on your way.

64-Colours Ambient Lighting

A network of strategically placed LEDs casts a soothing and stylish yet unobtrusive glow on key interior areas, including the outside step area when you open any door. Illumination from beneath the front-seat head restraints accentuates the racy design of the seats while adding to rear-cabin passengers' sense of well-being when riding in darkness.

Power Front Seats With Memory

Intuitive, seat-shaped controls help you find your ideal driving position with power adjustment. A memory system for each seat recalls three stored positions for the seat.

Panoramic Sunroof

Offering sweeping skyward views to both front- and rear-seat passengers, this giant, fully functional glass sunroof features a front panel that can tilt up for ventilation or slide over the rear panel for an open-air feeling. A power interior shade lets occupants vary the amount of sunlight entering the cabin.

MULTIBEAM LED Headlamps

In the new CLA-Class, the high-resolution MULTIBEAM LED headlamps, each with individually controlled high-performance LEDs, automatically illuminate the road with a hitherto unsurpassed, precision-controlled distribution of exceptionally bright light – without dazzling other road users.

18" AMG Alloy Wheels

Legendary 18-inch AMG alloy wheels feature five pairs of ultrathin, tapered spokes that assert their light weight and high rigidity. They're fitted with low-profile all-season Extended Mobility tires.
